BIOMEDICAL DATA MINING USING MACHINE LEARNING

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | An Experimental Account | Biomedical Data Mining is an ever growing area of Natural Language Processing. This book provides an introduction to this field and its experimental account using machine learning techniques. It describes a novel method of automatic training data production using a biomedical ontology. This is an alternative to the traditional approaches involving labour-expensive manual data annotation. More specifically we address the task of gene name disambiguation. In biomedical literature...
