

Industrial Problem Solving Simplified: An 8-Step Program

By Ralph R Pawlak

Apress. Paperback. Condition: New. 175 pages. Industrial Problem Solving Simplified provides a roadmap for solving manufacturing problems. Containing numerous examples of actual problems and their solutions in various industrial environments, it is for novice as well as experienced manufacturing owners, managers, quality representatives, consultants, trainers, and procurement professionals. Author Ralph Pawlak's roadmap is a proven system that has been used to eliminate major manufacturing problems in electronics, casting, blow molding, and assembly operations. What's more, it has been used effectively in the manufacture of toys, juvenile products, chemicals, automotive engines, and innumerable components of many manufacturing facilities and in the U. S. , Canada, China, and Europe. The book's insights into problem causes and the methods to solve them once and for all are applicable to most problems in most industries. Pawlak, with decades of experience as manager of manufacturing, quality, and plant engineering for General Motors, Fisher Price, Vibratech, and others, offers tools to solve problems and shows how to use them. You'll learn how to use tools like quality check sheets, flow diagrams, concept sheets, duo diagrams, variation plots, sketches, sum-of-extremes tests, good versus bad comparisons, fractionals with interactions, and many-level checks. What's more, these are tools anyone can put to good...
