

Worcester Polytechnic Institute, Worcester, Mass (Classic Reprint) (Paperback)

By Worcester Polytechnic Institute

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Worcester Polytechnic Institute, Worcester, Mass The worcester polytechnic institute was founded in 1865 by a gift of from John Boynton of Templeton, Mass. Further gifts by citizens of Worcester, supplemented by state donations, made possible the construction and equipment of its present nine buildings. The Institute was opened for the reception of students in 1868, and the first class was graduated in 1871. Worcester is a city of inhabitants, an important centre of steam and electric rail ways. It contains extensive shops and manufactories and its industries are as diversified and as important as those of any city of its size in the world. Here are located the great wire mills of the Washburn and Moen Works of the American Steel and Wire the shops of the Crompton Knowles Loom Co., and many others hardly less important, all offering unusual opportunities for the investigation of practical manufacturing operations. The other great manufacturing centres of New England and New York are easily accessible. The location of the Institute, therefore, is especially favorable to the engineering student.
