The Imagineers Chronicles 2007 thru 2010 is a compilation of published bi monthly articles elaborating on the theoretical ideas contained in its companion book The Reality of Four Spatial Dimensions. Common sense sometimes gives a false indication of reality. As a result, the reality of other worlds go unnoticed. For example, many people of the fifteenth century believed the earth was flat, even though they could see the circular shadow of the earth moving across the moon during a lunar eclipse. However, Christopher Columbus along with many educated people of that time realized this to be an indication that the earth might be spherical. He trusted both his intellect and his senses more than the conventional wisdom of the time and sailed to a new world of knowledge and understanding. Similarly the book The Reality of the Fourth Spatial dimension shows how one can by observing his or her environment gain a better understanding of the reality of our world. Quantum mechanics and Einsteins Relativistic Theories have been the most successful scientific theories of modern times however; attempts to unify them...
