Bibliogov, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Pursuant to a congressional request, GAO provided information on budget object classifications, focusing on: (1) their origins, development, and use; (2) present historical trend data; and (3) actual and proposed uses of object class data to reduce federal administrative expenses. GAO found that: (1) budget object classification defines budget outlays by the personal and contractual services obtained, capital assets acquired, and other charges and payments made by the government; (2) object classes do not give precise information about services or equipment purchases, since an outlay could properly be recorded in any one of several classes; (3) object classification grew out of a voucher-based accounting system in an effort to control executive branch spending; (4) as the federal budget became more complex, object classification gave way to performance-based budgeting and became a supplementary means to provide budget information; (5) during fiscal years 1972 through 1993, object classes mirrored other budget trends such as interest costs and transfer payments which represented an increased share of the budget; (6) in 1993, the Administration and Congress sought to reduce administrative costs by reducing obligations for certain administrative...

Reviews

This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Simply no words to explain. It really is basic but shocks from the fifty percent of the ebook. I am just happy to explain how this is the finest pdf we have read within my personal life and could be the best ebook for possibly.
