The Roots of Reference

By W. V. Quine

Open Court Publishing Co., U.S., United States, 1990. Paperback. Book Condition: New. New edition. 228 x 152 mm. Language: English Brand New Book ***** Print on Demand *****. Our only channel of information about the world is the impact of external forces on our sensory surfaces. So says science itself. There is no clairvoyance. How, then, can we have parlayed this meager sensory input into a full-blown scientific theory of the world? This is itself a scientific question. The pursuit of it, with free use of scientific theory, is what I call naturalized epistemology. The Roots of Reference falls within that domain. Its more specific concern, within that domain, is reference to concrete and abstract objects: what such reference consists in, and how we achieve it. Part I is a statement of general psychological presumptions regarding perception and learning. The underlying notions of cause and disposition are examined in a philosophical spirit. In Part II those considerations are brought to bear more particularly on the learning of language. Part II comes firmly to grips with the nature of reification and reference. The process is inseparable from language, and unequivocally identifiable only to the degree that the language resembles ours in...

Reviews

This ebook is wonderful. It typically does not expense too much. You wont really feel monotony at at any time of your own time (that's what catalogs are for relating to should you request me).
