DATA STREAM LOAD SHEDDING

Condition: New. Publisher/Verlag: AV AkademikerVerlag | Dynamically Managing Channel Capacity | Revision with unchanged content. A data stream being transmitted over a network channel with capacity less than the data transmission rate of the data stream causes sequential network problems. In this book, we present a new approach for shedding less-informative attribute data from a data stream to maintain the data transmission rate less than the network channel capacity. A scheme for shedding attributes, instead of tuples, becomes imperative...
