

Essential Light Straw Clay Construction: The Complete Step-by-Step Guide (Paperback)

By Lydia Doleman

New Society Publishers, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. The author helped to legitimize straw bale construction in the Pacific Northwest by constructing Portland's first permitted straw bale addition and Portland's first permitted straw bale residence. Flying Hammer Productions is her natural building construction company focused on pushing the boundaries of affordable and energy-efficient housing. This is the first non-proprietary how-to manual on light straw clay building, for residential, commercial, small-scale, and large scale buildings. Essential Light Straw Clay Construction will walk the beginner or interested experienced builder through the variety of ways to build using a Light Straw Clay wall system. Essential Light Straw Clay Construction highlights a variety of wall systems including timber frame, pole frame, stud frame, existing framing, Larsen trusses, conventional framing. This is the fourth book in the Sustainable Building Essentials series. Includes drawings and photos detailing the various tools, techniques, and wall sections for light straw clay infill wall systems, making this a great general resource for anyone interested in building with light straw clay. Code compliant with its own building code addendum for New Mexico, enabling its adoption across in the US.

Reviews

Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Llewellyn Terry**

Basically no terms to clarify. It can be written in basic terms instead of difficult to understand. I am easily could get a enjoyment of reading through a composed publication.

-- **Dr. Hazel Ziemann IV**
